Summary

Collection Title:

Oskar Morgenstern papers, 1866-1992, bulk dates 1917-1977

Source:

Economists' Papers Archive

Creator:

Morgenstern, Oskar, 1902-1977

Abstract:

Oskar Morgenstern (1902-1977) was a Distinguished Professor in Game Theory and Mathematical Economics at New York University. This collection documents his professional life through his correspondence and diaries, writings, and research. It forms parts of the Economists' Papers Archive.

Extent:

42.3 Linear Feet (121 boxes, three oversize folders, and one oversize tube.)

Language:

Material in English and German.

Collection ID:

RL.10033

Permalink:

Background

Scope and Content

This principally concerns Morgenstern's work as an economic theorist, university professor, author and lecturer, and consultant to business and government. It consists of correspondence, diaries, subject files, printed material, audiovisual material, manuscript and printed writings and their

supporting papers, and biographical and bibliographical information about his career and publications.

The first two decades of Morgenstern's career as an economist, the 1920s and 1930s, were associated with the University of Vienna where he was educated and was a faculty member until his emigration to the United States in 1938. He published major books about economic forecasting (1928) and the limits of economics (1934) and numerous other writings in which the subjects of business cycles, prices, the depression of the 1930s, economic conditions in Europe and America, currency and exchange, and economic history and theory are prominent. Information about them is scattered throughout the Correspondence, Writings and Speeches, and Subject Files series. Morgenstern's interests and correspondents were international, although principally European and American. A considerable part of the correspondence and writings during these years, and all of the diaries, are written in German. English is also prominent, and other languages also occur.

Morgenstern's output of publications during the 1940s, his first decade at Princeton University, was less extensive than in the 1930s, but he and John von Neumann published their classic *Theory of Games and Economic Behavior* in 1944. Information about this book and subsequent international developments in game theory pervades the Correspondence, Subject Files, and Writings and Speeches series until Morgenstern's death. The elaboration of game theory was not only theoretical but also practical, and Morgenstern's writings and projects illustrate its applications, especially in US military and foreign policy during the Cold War.

The Writings and Speeches series (including the diaries), Subject Files, and Correspondence series are as extensive for the 1940s as they are for the later decades of Morgenstern's career. He routinely placed letters and other material in his files for subjects and writings. There are a number of letters for some correspondents, but extensive correspondence with an individual is not characteristic of this collection. A person's letters may be filed in more than one chronological group of correspondence.

Morgenstern published prolifically during the 1950s to 1970s. His major books focused on accuracy in economics (1950), organization (1951), national defense (1958), international finance and business cycles (1959), the peaceful uses of underground nuclear explosions (1967), stock market prices (1970), political, economic, and military forecasting (1973), and expanding and contracting economies in various societies (1976). These books and numerous articles and reviews reveal his interest in economic theory, international economic problems, and the application of mathematics and economics to public policy problems. The Writings and Speeches, Subject Files, and Correspondence series document many of his publications and such topics as the Cold War, nuclear issues, military and naval affairs (especially the US Navy), defense, space, economic analysis, game theory, the stock market, business cycles, mathematics and economics, statistical validity, and his work with John von Neumann, Martin

Shubik, Friedrich A. von Hayek, Gottfried Haberler, Antonio de Viti de Marco, Eveline Burns, Gerald L. Thompson, N. N. Vorob'ev, and others.

Morgenstern taught at Princeton until his retirement in 1970, when he began teaching at New York University, and both schools are represented, particularly in the Subject Files series. These files and the Writings and Speeches series document his relationship with public and private organizations, especially the Office of Naval Research, the Rand Corporation, various foundations and scholarly societies, and Mathematica, a consulting firm that did contract work for government and business. Morgenstern was co-founder of Mathematica. The Mathematica series contains correspondence, memos, policy reports, project proposals, and research papers. The institutions that are often mentioned include NASA, Office of Naval Research, and Sandia Corporation. Topics, among others, relate to analysis of military conflicts, economics of the space program, management research, or peaceful use of nuclear energy. Some materials related to Mathematica Series are still scattered across the rest of the collection.

Morgenstern habitually incorporated into his files pertinent thoughts or information that might be useful for later consideration. Consequently, the Subject Files and Writings and Speeches series often include letters, memoranda, lecture notes, writings by others, mathematics, printed material, and other items. Thus, a file for a topic or publication in 1963 may contain relevant dated material from other years and decades.

The diaries, 1917-1977, are relatively complete, but Morgenstern did not write daily or every month. There are significant gaps: 1918-1920; February-May 1938; March 1946-January 1947; and September 1951-February 1952. Shorter gaps also occur in April-May 1924, September 1925; June-July 1948; and April 1949. The diaries are in the Writings and Speeches series.

Morgenstern's library of printed material was donated to New York University.

Biographical/Historical

Date	Description
1902, Jan. 24	Born in Grlitz, Silesia, Germany
1925	Doctorate in political science, University of Vienna
1925-1928	Laura Spelman Rockefeller Memorial Fellowship
1928	Wirtschaftsprognose

Date	Description
1929-1938	Lecturer and professor in economics, University of Vienna
1934	Die Grenzen der Wirtschaftspolitik
1938-1970	Lecturer and professor of economics, Princeton University
1944	Became US citizen (with John von Neumann) Theory of Games and Economic Behavior
1948	Married Dorothy Young

Access note. Some materials in this collection are fragile audiovisual/ photographic formats that may need to be reformatted before use. Contact Research Services for access.

Access restricted. Accessions 1999-0265, 1999-0438, and 2006-0067 require additional arrangement, description, and/or screening because they are unprocessed. Contact Research Services for more information.

Acquisition Information

The Oskar Morgenstern papers were received by the David M. Rubenstein Rare Book and Manuscript Library as gifts between 1987-1999, from Karin Morgenstern Papp in 2013, and from Kenneth Johnson in 2022.

Processing Information

Processed by Denise Dolan, Bill Erwin, and Robb Hellwig, February 1991.

The bulk of Morgenstern's papers came to the library in their original labeled folders. However, the order of the folders was so random throughout the cartons that the structure of his files must have been disarranged. The series in which the collection is now arranged, therefore, represent an order imposed by staff.

Morgenstern often filed his correspondence in mixed chronological and alphabetical groups that sometimes overlapped in their dating. For example, there are sets of correspondence for: 1925-1926, A-Z; 1926-1927, A-Z; 1928, A-Z; and 1928-1939, A-Z. The alphabetical part of this arrangement assists the location of letters by particular individuals, especially since numerous signatures, often the foreign ones, are incomplete or difficult to read. Letters found scattered about the cartons were placed in a separate group of chronological correspondence.

Additions processed by John Bauman and Meghan Lyon, August, 2013; Leah Tams, September 2022.

The bulk of the material in the 1999 and 2006 additions had no discernible order. Thus, it was decided that the structure and series used for the original collection would be imposed on the additions. In almost every instance files were constructed and titles supplied. Some notable exceptions were: the family Teichler folder in the Information series, "Briefe von Oskar" in the Correspondence series, the Luigi Einaudi file in the Correspondence series, The Theory of Games and Economic Behavior folders in the Writings and Speeches series, and the Merck-Knoppers and Mommsen-Krup files in the Subject Files series. The 2013 addition represented missing years in the Correspondence and Subject Files series, and files were intellectually incorporated in the finding aid despite being physically housed in separate boxes.

Accessions described in this collection guide: 1999-0265, 1999-0438, 2006-0067, 2013-0065, and 2022-0114.

Correspondence, 1918-1977

Scope and Contents

The bulk of this series consists of letters written to Morgenstern by economists, educators, businessmen, and officials of governments and organizations. Communications from personal friends and family are minimal in a collection that is primarily professional. Copies of Morgenstern's letters are available for some periods. Arranged into chronological groups often subdivided alphabetically. Noteworthy names and topics from each folder are listed below.

1918-1924: A-Z

Box 1

Physical Description: 7 folders

Scope and Contents note

Includes letters from von Bismarck, Deutsche Allgemeine Zeitung, Gustav Fischer, Hans Hoffman, Hans Mayer (?), Max Reichmuth, and Othomar Spann.

1925-1926: A-G

Box 1

Scope and Contents note

Includes letters from Columbia University, F.Y. Edgeworth, and Frank A. Fetter. ALS from F.Y. Edgeworth to Morgenstern on Royal Economic Society All Souls/Oxford letterhead, dated November 21, 1925, donated by Martin Shubik as part of Acc. 2018-0050.

1925-1926: H-Z

Box 2

Physical Description: 5 folders

Scope and Contents note

Includes letters from F.A. Hayek, The London School of Economics, Hans Mayer (in the M and S folders), Wesley C. Mitchell, Hans Neuwirth, John Nolen, The Rockefeller Foundation, Wilhelm Roepcke, P.N. Rosenstein, Urban League, and Hans Wolf.

1926-1927: A-Z

Box 2

Physical Description: 6 folders

Scope and Contents note

Includes letters from American Economic Review, Irving Fisher, Alvin H. Hansen, F.A. Hayek, International Banking-Students Association, Marget, Wesley C. Mitchell, Hans Neuwirth, A.F. Pribram, The Rockefeller Foundation, F.W. Taussing, Max Thornburg, and A. Young.

1926-1927: Miscellaneous

Box 2

1927: Carbon Copies

Box 3

Physical Description: 2 folders

Scope and Contents note

Includes letters from Gottfried Haberler, F.A. Hayek, Wesley C. Mitchell, Hans Neuwirth, The Rockefeller Foundation, A.F. Pribram, F.X. Weiss, and Allyn A. Young.

1928: A-Z

Box 3

Physical Description: 7 folders

Scope and Contents note

Includes letters from American Economic Review, Luige Einaudi, Irving Fisher, Gottfried Haberler, Alvin Hansen, F.A. Hayek, International Banking-Students Association, F.H. Knight, A. Marget, Hans Mayer, Wesley C. Mitchell, A.F. Pribram, The Rockefeller Foundation, P.N. Rosenstein, Verlag Julius Springer Wien, and Jacob Viner.

1928: Carbon Copies Box 3

Scope and Contents note

Includes letters from Hans Mayer, P.N. Rosenstein, Gottfried Haberler, F.A. Hayek, Luigi Einaudi, W.(?) Eucken, Irving Fisher, Arthur W. Marget, Wesley C. Mitchell, Hans Neuwirth, F. Pribram, a report to the Rockefeller Foundation, and Allyn A. Young.

1929 Box 3

Scope and Contents note

Includes letters from F. Zahn.

1930-1932: A-R Box 3

Physical Description: 4 folders

Scope and Contents note

Includes letters from American Economic Review, Encyclopedia of Social Sciences, Alvin H. Hansen, F.A. Hayek, International Banking Students Association, Emil Kauder, Frank H. Knight, Hans Mayer, A.P. Predoehl, The Rockefeller Foundation, and Ludwig von Mises (letter from The Rockefeller Foundation).

1930-1932: S-Z Box 4

Scope and Contents note

Includes letters from J. Schumpeter and F.W. Taussig.

1928-1939: A-El Box 4

Scope and Contents note

Includes letters from Oskar Anderson, Henry Andrews, Osamu Arii, Walter Breisky, Robert Tuite Boothby, Eve M. Burns, Attilio Cabiati, Henry Clay, Economist, Luigi Einaudi, and Howard S. Ellis.

1928-1939: Ep-Ke Box 5

Physical Description: 15 folders

Scope and Contents note

Includes letters from Ernst Epstein, Alexander Gerschenkron, Gottfried Haberler, F.A. Hayek, T. Ichitani, Per Jacobsson, Ernst John, Emil Kauder, and J.M. Keynes.

- 1928-1939: Ki-T Box 6
Physical Description: 19 folders
Scope and Contents note
Includes letters from Viktor Kienbock, Frank H. Knight, Gunnar Myrdal, Royal Institute of International Affairs, A.W. Sanders, Karl Schlesinger, Josep Schumpeter, Felix Somary, Otto Lange, Verlag Julius Springer, and Arthur Spiethoff.
-
- 1928-1939: Te-Z Box 7
Physical Description: 19 folders
Scope and Contents note
Includes letters from Telegraphendirektion fur Wien, Fritz Thalmann, Frank C. Tiarks, Stefan Varga, Marchese A. de Viti de Marco, W. Vleugels, Johannes Vondrak, and David Watson.
-
- 1940-1949: A-Z Box 80
Physical Description: 28 folders
Scope and Contents note
Includes letters from Friedrich A. Hayek, G. Haberler, International Statistical Institute, Karl Menger, and John von Neumann.
-
- 1950-1958: A-S Box 81

Writings and Speeches, 1910-1977

Scope and Contents

Morgenstern's publications, lectures, speeches and reviews focus upon economic theory and national and international economic problems. The diaries, written in German, cover his professional career and are also the principal source for his personal life. The writings are arranged into diaries, large chronological and alphabetical groups, and a small miscellaneous group. The chronological writings are mostly printed material and photocopies. The alphabetical writings include drafts and final copies, often incomplete, and may be manuscripts, typescripts, photocopies, or printed material. The files of alphabetical writings also include supporting papers. A particular publication may have material in both the chronological and alphabetical group.

A later addition to Writings and Speeches has been incorporated intellectually in the list below but is physically housed in Boxes 100 and 101.

Diaries, 1917-1977

Diaries, 1917, March 14-1928, Jan. 4 Physical Description: 14 folders	Box 12

[Return to Table of Contents](#)

Subject Files, 1893-1987

Scope and Contents

The bulk of this series consists of files for persons, topics, and organizations relating to Morgenstern's career as an economic theorist, educator, author, and government advisor, and his concern for the evaluation and solution of national and international economic problems. The files include letters, writings by Morgenstern and others, printed material, photocopies, notes, memoranda, lecture notes, mathematics, bibliography, reports, pictures, and undergraduate and graduate course material. Arranged alphabetically.

A later addition to Morgenstern's Subject Files has been incorporated into the list below but is physically housed separately in Boxes 94-99.

Mathematica, 1958-1977

Scope and Contents

This part of the collection comprises of documents related to Morgenstern's activities with Mathematica, a consulting company that Morgenstern co-founded in 1962. Documents include correspondence, memos, policy reports, project proposals, and research papers. The institutions that are often mentioned include NASA, Office of Naval Research, and Sandia Corporation.

Topics, among others, relate to analysis of military conflicts, economics of the space program, management research, or peaceful use of nuclear energy. Some materials related to Mathematica Series are still scattered across the rest of the collection.

Scope and Contents

Primarily published works by Morgenstern and his major coauthors such as John von Neumann and Gerald L. Thompson in English, French, Spanish, Italian, and German arranged in alphabetical order. Important works contained in this series include typed manuscript portions of Theory of Games and Economic Behavior with annotations, draft chapters of the Question of National Defense, Long Term Planning with Models of Static and Dynamic Open Expanding Economies, the Mathematica Economic Analysis of the Space Shuttle

System, and some correspondence, as well as supporting documentation and statistics. There are also three audiotape reels with Morgenstern's lectures.
