## Background

---

**Scope and Content**

The collection includes publications, correspondence, reports, application materials, talent search materials, articles, syllabi, lists of students, flyers,

audiovisual materials, promotional materials, guides, manuals, termbooks, and other records. Topics include talented students and Duke University faculty.

## **Biographical/Historical**

The Duke University Talent Identification Program (TIP) was established in 1980. The program was created based on an academic talent search model developed by Julian Stanley. Robert N. Sawyer was TIP's first director, followed by David Goldstein, Steven Pfeiffer, Martha Putallaz, and Shawna Young. TIP began as a program for gifted seventh graders identified by their ACT and SAT scores then expanded to include fourth through twelfth graders. Grand Recognition Ceremony and state ceremonies were held to recognize high scoring participants. Overtime, TIP grew from only offering courses at Duke through its summer residential programs to also offering weekend programs during the regular school year. Duke TIP worked with students, their families, and educators to support students through several educational programs such as Talent Search, CRISIS, eInvestigators, eStudies, Summer Studies, Scholar Weekends, and international programs. TIP also operated on several other college campuses. Duke TIP halted its programming in 2020 due to the COVID-19 pandemic, then announced its official closure in 2021.
